55 Court Street  
Boston, MA 02108

Dear Frank,

Thank you for taking the time to meet with me regarding a potential partnership between The Boston Museum project and Boston Duck Tours.

At Boston Duck Tours we strive to give visitors a fun, informative, historical orientation to Boston and the Charles River in our WWII style amphibious vehicles. Since inception in 1994, we've carried over 5 million guests. We do realize that there is far more history than what we can present in our standard 80-minute tour. We have long believed that the city would benefit from an in depth, unique presentation of Boston's rich and wonderful history where visitors can spend hours. I feel confident that your team has the determination and passion to fill this need for the benefit of the local tourism industry.

On many levels I know that we can support your efforts including, marketing, sales, fundraising and partnering. We've had tremendous success with the Prudential Center and Museum of Science, and I am excited about how we can help contribute to your anticipated success.

Please feel free to contact me as you work your way through the process of planning, permitting and construction.

Regards,

Cindy Brown  
General Manager  
Boston Duck Tours
